

Tomahawk Oil Co.  
P.O. Box 865  
Roundup, Mt 59072

Kim Foard C.P.A. is a trusted family friend and guide to the future through the financial system so few of us truly understand today.

In the 1970's Tomahawk Oil was in need of a qualified certified public accountant. The search led us to the new accountant who had just hung up his shingle on the main street of Roundup, MT. After a short interview my dad started hauling boxes filled with important documents; papers of all kinds that he had been saving for the new C.P.A. and this year's tax return. Kim foraged through the documents, shuffled the papers and with considerable effort was able to prepare Tomahawk's business tax return just before Christmas of that year.

There were several rewards that year, the confidence that the business tax return was done correctly and also the first bank deposit for a young man starting his new business. Kim was building his future and best of all our long-lasting friendship. Christmas passed and all seemed well when Kim contacted my dad and requested more boxes from the past years. Kim sorted papers, organized documents and began the process of refilling the past years income tax returns. After all this work Tomahawk started depositing checks from the Internal Revenue Service. Kim filed more back tax returns and Tomahawk deposited more checks.

Kim has been our accountant since he first opened his office door on the main street of Roundup. He is our guide, he has coached, listened, trained us on the computer, and has already begun the process of educating the next generation. I am sure Kim could help guide any new client and help forge a great working relationship with them.

David K. Brewer, President

A handwritten signature in cursive script that reads "David K Brewer". The signature is written in black ink and is positioned below the typed name.
