My husband has been a client and friend of Kim's for the past 20 years. I came into the picture in 1998 not knowing a thing about my husband's trucking business let alone the accounting side of things. Kim has been exceptionally patient through my learning process. Since my husband is on the road a lot I have taken over the bookkeeping to free up some of his home time. In the last year we have switched bookkeeping programs, which with that came a lot Kim's time and patience. With Kim's help the change has overall been relatively smooth. This all goes to prove Kim has gone above and beyond his call of duty with his accounting service for our business. Kim is extremely professional which has in turn given my husband and I much respect and trust in him. He is sincerely interested in how my husband and I would like our business to grow and from his accounting knowledge is able to help us achieve this goal. Granted it takes dedication and cooperation from our side of the business, but it is extremely important to have his insight and guidance on the accounting side for the business to run smoothly. I believe Kim wants all of his clients to succeed not only in a business sense, but also as individuals, husband, wife, children, and as a family. The way my husband and I have seen him conduct his business truly proves this. He is always there to encourage, advise, instruct and listen to all of our questions and concerns. When we work with Kim we are not only a client or a number on his desk, we are his friends and it definitely shows in the long-term quality of service we have received.
